Dr. Robert M. Farrier
Assistant Director
The Clinical Center
National Institutes of Health
Bethesda 14, Maryland

Dear Bob:

Herewith is a letter from Mrs. Allen
H. W. Higgins of [redacted]
suggesting another cure possibility for the
Secretary of State.

STAT

Will you please see that it is given
the usual consideration and let me have your
suggestion as to how it should be answered.

With many thanks,

Sincerely,

[redacted]

Assistant to the Director

March 9 '59

Dear Mrs. Dulles -

I want to bring to your attention the successful and painless treatment of cancer which Dr. Devic is administering in Trosalgar Hospital, 161 E. 90th St. N.Y.C.

My husband is in Trosalgar now and well on the way to recovery after being given up as a hopeless case by two of Boston's leading surgeons.

Dr. Devic has not been well accepted by the Am.

Mrs. Allan H. W. Higgins

STAT

Medical Association up to this
time. I was largely thru
prejudice of one kind or another.

Several Dulles men physicians
might take no action on this
information but I urge you
to look into it at once. Time
is very important in the
treatment.

Mr. Higgins is a well
known attorney and would be
happy to hear from you at
the hospital and give his
reactions to the treatment he
is receiving.

Sincerely yours,
Allan H. W. Higgins
